Dug up existing parking area to front of house, dug out some of the garden area (20 tons), built a large retaining wall and laid material for newly created parking area.

“Mike, George and Steve were polite, courteous and very professional. Mike involved us in the project from day one, explaining what was being done and why. A messy business but the lads endeavoured to clean up every day and maintain a tidy site so as not to impact on the neighbours too much. We were so impressed we have spoken to Mike about future projects. All in all a great job by good people.”

“Mike and George were very accommodating regarding our requirements to replace our old patio and make a new larger paved area and to incorporate cabling under the patio. They took problems in their stride and sorted these out as they went, fixing a drain which had been broken for years. They also replaced a fenced area, to bring this in line with the fence they had previously erected for us. They worked extremely hard, with the weather against them and have done a very good job. They remained courteous and upbeat and at all times. We will happily employ them again in the future.”

100% Remedial work, guarantee honoured without quibble.

“We had our driveway and front garden completely removed and replaced with block paving and Mike Hayes gave us a one year guarantee on the work. I contacted Mike very close to the end of the guarantee period to tell him about a small dip in the paving where the soakaway was. Mike explained that this was probably due to the high volume of water on the very severe slope. He explained that he was very busy and couldn't get on to the remedial work until three or four weeks. True to his word, his men came and rectified the fault, putting extra support under the paving at the soakaway, the paving was then re-laid. While they were there they attended to the levels around one of the manhole covers which were not reported. The result is that everything looks superb again. At no time did Mike ever try to get out of this, he accepted responsibility and rectified the situation without hassle, very rare for a builder these days. I have only known of Mike through engaging him in this project but I feel as though he has treated us as friends. Thanks Mike.”
